## SKILLS

- Languages: C++, JavaScript, Typescript, HTML5, CSS3, Java, Python, SQL
- Technologies: React, Vue, Ajax, Node.JS, Yarn, ESLint, Selenium, Visual Studio, Git, Slack, Google Hangouts, SolidWorks, AutoCAD, MS Office (Word & Excel)

## PROJECTS

### Clay – 3D Graphics Engine

September 2020 – Present

- Built and designed an open-source **3D** graphics engine with movement capabilities **from scratch** using **C++** implementing **Object-Oriented Programming** principles and linear algebra to simulate movement within a 3D space
- Created **client-facing API** to handle user-inputted objects in order to project them to 2D rasterizations
- Used **Git** for version control with adherence to best source control principles in a concentrated group of developers

### frauddit – A Reddit Clone

August 2020

- Created a working clone of reddit.com using **Vue** and **Firestore** in **VS Code**
- Utilized **Cloud Functions** to maintain site security and to best authenticate users
- Devised Schemas and Collection structures for user, subreddit, post, and comment models

### NoLosses – An Online Expense Tracker

August 2020

- Developed a responsive full stack expense tracker using **Vue**, **Firestore**, **Vuex**, and **NodeJs**
- Integrated backend built with **NodeJs** and **Firestore** with frontend built using **Vue**, with **Vuex** for state management
- Updates in real-time through seamless synchronization with the database and front-end

## WORK EXPERIENCE

### BGPC – Full Stack Developer

July 2020 – Present

- Implemented web pages using **Vue** with **Tailwind CSS** from concept through to deployment
- Collaborated with team members to implement new features and functionalities for internal development using **Ajax**, **Typescript**, and **JSON**
- Designed backend infrastructure for full stack integration with frontend components
- Worked with a distributed team and utilized appropriate version control protocols with **Git**

## RELEVANT COURSES

- Data Structures and Algorithms
- Linear Algebra
- Audited Coursera course: UI/UX Design Specialization

## EDUCATION

### University of Waterloo

2019-2024

- Candidate for a BAsC in Mechatronics Engineering

## INTERESTS

Cryptography ▪ Artificial Intelligence & Machine Learning ▪ Video Game Design ▪ Drones and UAVs
